

TALHA RIAZ

SENIOR FULL-STACK DEVELOPER

PROFESSIONAL SUMMARY

Bhara Kahu, Islamabad, Pakistan | +92 318 585347 | talhariaz5425869@gmail.com | github.com/talhary | talhatech.vercel.app

Senior Full-Stack Developer with 2 years of experience building enterprise-grade Management Systems. Proficient in Python (FastAPI), Golang, and databases (PostgreSQL/SQL, MongoDB).

WORK EXPERIENCE

Senior Software Engineer | Woltrio

2025 - PRESENT

- Architecting scalable backends with Golang, PostgreSQL, and AWS Fargate serverless containers.

Software Engineer | Swismax

2024 - 2025

- Developed dashboards using React (MERN Stack) and Material UI (MUI), fetching data via GraphQL and REST APIs.
- Managed backend services on AWS EC2, writing optimized SQL queries, and transitioned PHP monoliths to containerized microservices.
- Built cross-platform mobile apps with React Native & Expo and automated testing via Puppeteer.
- Delivered scalable SaaS solutions with Tailwind CSS ensuring full responsiveness across all devices.

MANAGEMENT SYSTEMS & PROJECTS

Golang Distributed Chat System / Bridge

- High-concurrency chat server built using Golang, WebSockets, and Redis for real-time messaging.
- Configured AWS ALB and managed scaling via ECS Fargate and PostgreSQL database.

AI-Powered Code Assistant CLI

- CLI tool built in Go and Python integrating LLMs for automated code generation, search, and page rendering.
- Implemented custom caching and token-limiting optimization logic.

TECHNICAL SKILLS

FRONTEND/UI	BACKEND/DATABASE	AWS & CLOUD	DEVOPS/TOOLS
React, Next.js, TypeScript, JavaScript, React Native Expo, TanStack Start, Redux, TanStack Query, Tailwind, shadcn/ui, MUI, HTML5/CSS3	Golang	AWS Cloud, Fargate, EC2, ACM, S3, ALB, Firebase, Supabase	GitHub Actions, CI/CD, Docker, Puppeteer, Git/GitHub

EDUCATION

BS in Mathematics

2021 - 2024

Quaid-e-Azam University, Islamabad

LANGUAGES

English: Proficient | Urdu: Native
