

TALHA RIAZ [cite: 1]

SENIOR FULL-STACK DEVELOPER [cite: 2]

PROFESSIONAL SUMMARY [cite: 3]

Bhara Kahu, Islamabad, Pakistan | +92 318 585347 talhariaz5425869@gmail.com | github.com/talhary talhatech.vercel.app [cite: 4]

Senior Full-Stack Developer with 2 years of experience building enterprise-grade Management Systems. Expert in Next.js, MERN stack, and React Redux. [cite: 5] Proficient in Python (FastAPI), Golang, and databases (PostgreSQL/SQL, MongoDB). Specialized in high-performance UIs using Tailwind CSS, GraphQL, and payment systems (Stripe Connect, Reader Pay, Meter), with robust data orchestration via Prisma, Drizzle ORM, and TanStack Query. [cite: 6]

WORK EXPERIENCE [cite: 7]

Senior Software Engineer | Woltrio [cite: 8]

2025 PRESENT [cite: 10]

- Building modern healthcare frontends with TanStack Start and shadcn/ui for premium user experiences. [cite: 9]
- Implementing complex server-state management using TanStack Query (React Query) and Redux Toolkit with Prisma and Drizzle ORM. [cite: 11]
- Architecting scalable backends with Golang, PostgreSQL, and AWS Fargate serverless containers. [cite: 12]
- Configured ALB/Target Groups and managed SSL via AWS ACM for high-security healthcare traffic. [cite: 13]
- Streamlined development cycles with GitHub Actions CI/CD and Docker Compose. [cite: 14]

Software Engineer | Swismax [cite: 15]

2024 2025 [cite: 16]

- Developed dashboards using React (MERN Stack) and Material UI (MUI), fetching data via GraphQL and REST APIs. [cite: 17]
- Managed backend services on AWS EC2, writing optimized SQL queries, and transitioned PHP monoliths to containerized microservices. [cite: 18]
- Built cross-platform mobile apps with React Native & Expo and automated testing via Puppeteer. [cite: 19]
- Delivered scalable SaaS solutions with Tailwind CSS ensuring full responsiveness across all devices. [cite: 20]

MANAGEMENT SYSTEMS & PROJECTS [cite: 21]

Vine LMS (vinelms.com) [cite: 22]

- LMS built with Next.js, Node.js/Express, and PostgreSQL, utilizing TanStack Query, Stripe Connect, Reader Pay, and Stripe Meter. [cite: 23]
- Containerized via Docker & Docker Compose with custom routing via Cloudflare dynamic domains. [cite: 24]

Healthcare EMR System [cite: 25]

- EMR platform built with MERN stack. Utilized Redux for global state and AWS Fargate for scalable API endpoints with ACM encryption. [cite: 26]

Anti-Bot Google Search Scraper [cite: 27]

- Bypass/scraping engine built with React (Vite), Node.js (TS), and Python (FastAPI). [cite: 28]
- Uses Puppeteer & SeleniumBase to extract organic search metrics and SGE AI Overviews. [cite: 29]

TECHNICAL SKILLS [cite: 30]

FRONTEND/UI [cite: 31]	BACKEND/DATABASE [cite: 31]	AWS & CLOUD [cite: 31]	DEVOPS/TOOLS [cite: 31]
React, Next.js, TypeScript, JavaScript, React Native Expo, TanStack Start, Redux, TanStack Query, Tailwind, shadcn/ui, MUI, HTML5/CSS3 [cite: 31]	Node.js, Express.js, FastAPI, Golang, MERN Stack, PostgreSQL, SQL, MongoDB, GraphQL, Drizzle ORM, Prisma, Stripe Connect, Stripe Reader Pay, Stripe Meter, PHP, REST APIs, Webhooks [cite: 31]	AWS Cloud, Fargate, EC2, ACM, S3, ALB, Firebase, Supabase [cite: 31]	GitHub Actions, CI/CD, Docker, Puppeteer, Git/GitHub [cite: 31]

EDUCATION [cite: 32]

BS in Mathematics [cite: 33]

Quaid-e-Azam University, Islamabad [cite: 34]

LANGUAGES [cite: 35]

2021-2024 English: Proficient Urdu: Native [cite: 36]
